Introduction to Severn Trent Community Fund

Our customers, and the communities we live and work in, are at the heart of everything we do. And that’s why, from 2020, we’re going to be giving away more than £10 million over the next five years to support new projects by local charities and community groups in the Severn Trent region - helping to make a real and tangible difference in our communities.

Our Fund is overseen by an independent Community Fund Customer Panel who will review the applications, so ultimately, it is up to our customers to decide where our money goes!

We’ve been astounded by how much interest our Community Fund has generated so far and how many fantastic community projects are planned across our region. At our previous panel meetings we’ve received over £5 million worth of applications with only a limited budget to spend, so although we’d love to, unfortunately we can’t fund every application we receive. With this in mind, we’d like to make you aware that if you are applying for a large amount of money, the Panel may only choose to support 1 application from our largest funding pot per quarter.

This pack has been designed to help you through our application process and to outline what to expect along the way.

Still got questions after reading this document? Or you have a project idea but not quite sure if it is right for the Severn Trent Community Fund? Our Fund Officers are happy to help answer any additional questions. To arrange additional Officer support, please contact communityfund@severntrent.co.uk.

**IMPORTANT: Recent changes to our criteria**

From 1st September 2020, any applications for over £75,000 must incorporate and demonstrate a considerable link to all three of our wellbeing themes. If you started your application before this date and your project doesn’t meet our new criteria, please reach out to us to discuss your application.

We’re one of a handful of funders open to non-COVID-19 related funding and we’re seeing a huge increase in demand for funding. From 1st October 2020, we’re altering the range of our largest funding pot slightly to £75,000 - £200,000 (previously £75,000 – £250,000) so that we can support as many projects as possible.
Before you apply

Check your eligibility

The first thing you need to do before you apply is to check whether both your organisation and upcoming project are eligible for the Fund.

Our Fund has been designed to support the wellbeing of communities in the Severn Trent region. We seek to fund projects that link to three key elements of community wellbeing - People, Place and Environment - with favourability shown to projects that ideally lie within a ‘sweet spot’ that incorporates all three. If you’re applying for over £75,000, please note that a combination of all three of these themes is necessary to be eligible:

- **People** Projects that facilitate healthier lifestyles and skills development
- **Environment** Projects that facilitate a healthier natural environment, greater access to that environment or support the preservation of water
- **Place** Projects that help create better places to live in and use

And of course, being a water company, naturally we’d love to see applications for projects that have a connection to water too (although not essential)! This might mean using the SuDS approach for installing grey water recycling or creating sustainable drainage and water efficient green spaces.

Both capital and revenue projects will be considered, as long as the project can evidence it will be sustained beyond our initial investment.

Please refer to our full eligibility criteria on our website at stwater.co.uk/community-fund-applications.

Check whether your organisation and project are eligible

What we can fund

You can apply for a grant if your organisation is not for profit and you have a governing document. Applications can be made by organisations including:

- Local Authority or Parish Council
- Charitable incorporated organisation (CIO) / foundation CIO
- Registered Company (limited by guarantee)
- Registered Charity
• Volunteer / community group
• Foundation school, college or academy
• Community Amateur Sports Club (CASC)

The proposed project must be located in the Severn Trent region and the community it is benefiting must be Severn Trent customers.

Unfortunately, if the project is located in the Hafren Dyfrdwy region, it will not be eligible for support from the Severn Trent Community Fund.

Defining a Severn Trent customer

A Severn Trent customer is somebody that receives their water supply from us, or whose waste is taken away and treated by us (note, this may not necessarily mean they receive their bill from us; you can use the postcode checker below if you are unsure).

Location of projects we can fund

To be eligible to apply for the Fund, both the location and the beneficiaries of your project must be located within the Severn Trent region.

You can check whether your project is in our region using WaterUK’s water supplier finder: https://www.water.org.uk/advice-for-customers/find-your-supplier

IMPORTANT: Organisations applying for more than £10,001 must be either charity registered or company registered (and supply us with a charity or company number), or an exempt charity, Local Authority or Parish Council.

What we can’t fund

Unfortunately, we can’t fund:

• Individuals;
• Any organisation that is legally able to make a profit (e.g. limited liability partnerships, limited companies, sole traders);
• Work that is too closely linked to our core services (e.g. new or replacement water or waste pipes, new water supplies, or new connections);
• General organisation or current project costs – your application must be for a new project;
• Projects where we are NOT the majority funder;
• Projects with a political or religious purpose;
• Projects not within the Severn Trent region;
• Projects that aren’t sustainable (e.g. the project would need a further grant to continue beyond our investment);
• Short term/one off events (unless requesting a water bar);
• Retrospective costs – Project/work that has already taken place;
• Any organisation that cannot demonstrate appropriate governance;
• Any project that is to the detriment of Severn Trent and its interests (e.g. projects that use excessive volumes of mains water, that use mains water irresponsibly, or that do not use water efficient alternatives where possible);
• Projects that have already received funding from us.

Please see the next page for full list of ineligible costs.
Check whether you can use the grant to pay for your proposed costs

Here is a list of our eligible and ineligible costs – if you are still unsure or if a certain project cost is not listed here, please get in touch with our team by emailing communityfund@severntrent.co.uk.

<table>

*Why we can’t fund water fountains

For water quality reasons we prefer to promote our Refill points at local bars and cafes across our region, where we know that they will be kept hygienic and we can keep our customers safe. Find your nearest Refill station here: [https://refill.org.uk/](https://refill.org.uk/), and for more information: [https://www.stwater.co.uk/wonderful-on-tap/refill-overview/](https://www.stwater.co.uk/wonderful-on-tap/refill-overview/).

**Why we can’t fund reservoir swimming

Sorry, due to safety reasons we do not endorse open water swimming at our reservoirs.
Ensure you have the correct documentation to fill out your application

As part of the application process, we will ask you to tell us about how your organisation is structured and how you manage finances. The following table sets out the key areas you will need to provide evidence for or confirm you have in place, and when in the process this is required.

If you do not have all or any of these in place, let us know! We may be able to signpost you to advice and guidance.

<table>
<thead>
<tr>
<th>Evidence</th>
<th>Provide at Application stage</th>
<th>Provide at Grant Offer stage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Legal Structure&lt;br&gt;A legal structure that is appropriate to the size and nature of the organisation, set out in a constitution or memorandum/articles of association that clearly outlines the aims and rules governing the organisation.</td>
<td>✓</td>
<td></td>
</tr>
<tr>
<td>Accounts &amp; Financial Management&lt;br&gt;Accounting records which are appropriate to the size and nature of your organisation.</td>
<td>✓</td>
<td></td>
</tr>
<tr>
<td>Bank Statement&lt;br&gt;A recent bank statement (dated within the last three months) to confirm where the grant if awarded will be paid.</td>
<td>✓</td>
<td></td>
</tr>
<tr>
<td>Bank Account Signatories&lt;br&gt;Bank Account with at least two signatories for joint authorisation (not related or living at the same address).</td>
<td>✓</td>
<td></td>
</tr>
<tr>
<td>Project Consent Form/Lease agreement or deeds (Capital works)&lt;br&gt;If your project is making a physical change to your surroundings, we will ask to see your property deeds or lease agreement. If your project is being completed on leased or third-party you must also have the landowner complete the project consent form. Please note, we require a minimum remaining lease term for the different grant requests as follows:&lt;br&gt;£10,000 or less - 2 years&lt;br&gt;£10,001 to £75K - 5 years&lt;br&gt;£75,001 to £200K - 10 years&lt;br&gt;If your organisation has a rolling annual lease, for applications under £10,000 we may be able to accept written confirmation from the landowner that your organisation is able to lease the land for the above terms. This will be reviewed on a case by case basis.</td>
<td>✓</td>
<td></td>
</tr>
<tr>
<td>Letter of Support/Recommendation (where applicable)&lt;br&gt;If you have referenced a key partnership or an endorsement from a key stakeholder in your application, please make sure this letter endorses that.</td>
<td>✓</td>
<td></td>
</tr>
<tr>
<td>Policies and Procedures&lt;br&gt;You will need to ensure you have policies and procedures in place relevant for your project. If you are unsure you can get help from your local infrastructure organisation or online sites such as the NSPCC <a href="https://learning.nspcc.org.uk/safeguarding-checklist/">https://learning.nspcc.org.uk/safeguarding-checklist/</a></td>
<td>✓ confirmation only</td>
<td></td>
</tr>
</tbody>
</table>
Here are some examples of expected policies and procedures:

**Equal Opportunities**
- References Equality Act 2010
- Policy should cover age, being married or in a civil partnership, being pregnant or having a child
- Disability, race, religion/belief or lack of, gender, sexual orientation, being or becoming a transsexual person
- Equal access to services and employment
- Preventing harassment and ensuring everyone is treated equally
- Complaints are dealt with fairly

**Employment**
Organisations must comply with all employment law including legislation on stakeholder pensions (if appropriate) and pay at least the minimum Living Wage [https://www.livingwage.org.uk/what-real-living-wage](https://www.livingwage.org.uk/what-real-living-wage). Demonstrate good practice in personnel matters by having clear policies and procedures (Amendment) Act 2000, Sex Discrimination Act 1975, Disability Discrimination Act 1995, Equality Act 2010 and the Human Rights Act 1998 and provide appropriate training for trustees, staff and volunteers.

**GDPR Policy & Procedures**
All organisations are expected to comply with GDPR particularly where personal and sensitive data is collected and stored.

**Health & Safety Policy & Procedures**
Organisations must meet legal requirements under current Health and Safety regulations. In particular statutory obligations covering employees, volunteers and members of the public and buildings. For example, carrying out risk assessments and having fire certificates where appropriate.

**Safeguarding Policy & Procedures**
- Definitions of abuse and signs of abuse and a description of how abuse is different for adults (if working with both children and vulnerable adults);
- Procedure for reporting safeguarding concerns;
- Procedure for handling cases of disclosure revealed by DBS checks;
- The name of the person responsible for child protection;
- The name of the local safeguarding board;
- All staff, volunteers and Trustees who are working directly with vulnerable adults and/or children should have the appropriate DBS checks and there is an understanding of when enhanced DBS checks should be carried out;
- All staff, volunteers and trustees who work indirectly with vulnerable adults and/or children receive safeguarding training;
- Risk assessments are carried out to ensure vulnerable adults and/or children in your care are safe;
- Frequency at which the policy is reviewed, suggest annually.
Insurance
Organisations must ensure that appropriate insurance certification and licences are in place. For example, public liability, professional indemnity (where appropriate) and employer’s liability.

| ✓ confirmation only | If requested |

Accounting Records

The type of accounts we need will depend on the type of organisation you are:

- If you are a new organisation with no prepared accounts you will need to provide a projected income and expenditure forecast. This must include all secured and expected income (such as other grants) and expected expenditure. We cannot accept the accounts of any partners in lieu of this.
- From an organisation with income less than £25,000 we would expect to receive a basic document highlighting income and expenditure and any balance sheet items.
- From an organisation with income over £25,000, but less than £1 million we would expect to receive accounts that have been reviewed by an appropriately qualified person (this is not deemed an audit). We would expect this to be a slimmed down version, but still similar to the accounts that a large organisation produces. Audited accounts will be needed if total assets (before liabilities) exceed £3.26 million and the organisation's gross income is more than £250,000.
- From an organisation with income over £1 million we would expect to receive externally audited accounts. This is likely to be a reasonable-sized document with a detailed Trustee or Directors’ report and notes to accounts.

Bank Account

Your bank account must have a minimum of two signatories for joint authorisation unrelated and/or not living at the same address. This should be fairly straightforward to set up via your bank. You can apply for a grant without having two signatories in place, but if successful you will not receive any funding until your account requires two signatories and you can provide evidence of this. If two signatories are related, a bank mandate should be formed preventing them from signing together.

Get planning permission

If any aspect of your project involves a change to an indoor or outdoor space, or activities will be taking place outdoors, you’ll need to get planning permission. Make sure you read the UK Government guidance on planning permission to check whether you need it or not: www.gov.uk/planning-permission-england-wales. If planning permission is needed, you will need to have received this before applying to us.

You’ll also need to complete a Project Consent Form, which must be signed by the landowner to confirm you have consent and will comply with relevant planning rules and building regulations. We ask that this is submitted with your application. This form is available on our website and through the application portal.
Secure any match funding

We would love to maximise our impact for every project we support. For this reason we encourage all applications to provide match funding, where possible.

If you are applying for £10,000 or less, match funding is not mandatory. However, if you secure match funding it is likely to help your application be successful, so we would encourage you to do so where possible. Match funding does not have to be in the form of cash. In-kind contributions for services or volunteering can also add a great deal of value to lots of projects.

If you are applying for £10,001 or more, it’s essential that you are able to contribute at least 10% financial match funding. This must be secured before your application can progress to the next stage. In-kind contributions and volunteering cannot be used as financial match funding.

Including Value-added Tax in your budget and application

You may need to pay VAT on purchases made as part of your project and we can pay for this within the grant. Make sure you check whether VAT needs to be included when you develop your budget. The amount of funding you request should only include VAT where you don’t intend to, or can’t, recover the VAT at a later date. If you later find that VAT claimed under the grant becomes recoverable, you must repay this amount to us.

Check your timescales fit with ours

Our Community Fund Panel, who ultimately make the decision on which projects should be funded, review applications on a quarterly basis. Their Panel meetings are held in March, June, September and December.

Please make sure you submit your application in time for your required Panel, and only when you are ready to start your project. We can’t allow grant money to sit untouched, so your project must start within 3 months of the grant offer date. The cut-off date for an application to be considered at a Panel is the middle of the previous month, with successful projects paid within a month of their project start date.

The size of grant you’ve applied for will influence how long the decision process takes, but we will always let you know the final outcome of your application within an absolute maximum of five months of submission, depending on the date you submit your application.

IMPORTANT: We can only accept 1 application per organisation for consideration at a time. Please let your colleagues know that you are applying to our Fund.

If your application is awarded, we will happily consider future projects for funding once your funded project is completed, all required monitoring has been received, and at least 12 months have passed since the date on your previous grant offer letter.

If your application is unsuccessful you are welcome to reapply to the Community Fund with a different project.
Filling out the application

Sign up to create an account

Once you have checked your organisation and project are eligible, and read all of our guidance, you are ready to start the process.

Firstly, you need to sign up to create an account on our application portal. Once you have created an account, you can use these log in details to log in at any point and see what stage your application is at.

The application portal link is https://webportalapp.com/sp/login/severn_trent and can be found through our webpage at www.stwater.co.uk/communityfund.

You may find it handy to add the application portal as a favourite on your browser so you can easily access your application.

Create a profile

Once you have logged on, you will be asked to create a profile. This should be a profile for your organisation's details. We will need the person filling out the application for the organisation to provide us with their personal details and contact details for a second person that we can contact during the process.

Please triple check that the contact information you’ve entered is correct, as these are the details we will use to contact you throughout the process.

Eligibility check

Now that you’ve created a profile, you can begin your application. You will be asked to certify that you meet our eligibility criteria. If you don’t meet our eligibility, we will soon realise when it comes to reviewing your application, so please be open and honest at this point if you don’t meet our criteria.

Choose how much you want to apply for

You will then be asked how much you are applying for. We have three categories:

- £2,000 to 10,000
- £10,001 to 75,000
- £75,001 to 200,000

Each category has a different set of questions, so please make sure you get this right.

If you’re applying for water bars, please make sure you select the water bar option at the start of the application form.
IMPORTANT: Organisations applying for £10,001 or more must be either charity registered or company registered (and supply us with a charity or company number), or an exempt charity, Local Authority or Parish Council.

You can check if your charity is registered at [www.gov.uk/find-charity-information](http://www.gov.uk/find-charity-information). To check registered companies, go to [www.gov.uk/government/organisations/companies-house](http://www.gov.uk/government/organisations/companies-house).

IMPORTANT: If you’re applying for over £75,001, please note that your project must link to all three of our wellbeing themes: People, Place and Environment.

Begin your application

Once you have chosen how much you want to apply for, you can now begin filling out the application. We have designed our application form so it is easy to navigate, but if you have any queries, please contact us by emailing our team on [communityfund@severntrent.co.uk](mailto:communityfund@severntrent.co.uk).

Any question marked with an asterisk is required, so you won’t be able to submit your application until all these questions have been answered.

You are able to save your application and come back to it another day if you wish, but please make sure you press ‘Save Draft’ before you do.

TOP TIPS FOR COMPLETING YOUR APPLICATION:

- Read this document thoroughly before completing your application and refer back to it as you work through your application form;
- Make sure your answers link in well with the Fund’s criteria and priorities;
- Back up your project ideas with evidence of need e.g. local consultation, statistics etc;
- Demonstrate the wide-reaching impact your project could have if funded. Be specific – don’t just say ‘it will benefit the whole community’. Instead, give measurable examples e.g. ‘up to 70 people suffering with poor mental health would no longer feel isolated and could gain new skills and friendships’;
- Please provide us with as much detail as you can, particularly if you are applying for a large amount of money, as this will help our Panel make their decisions. But only if it is relevant! There is an opportunity at the end of the form to add additional documents that you feel will support your application if you wish;
- Give us detail but write it as clearly and concisely as possible; you can use bullet points to get information across and please don’t use the full word count limit unless you need it;
- The Panel need a clear and detailed breakdown of your project costs to see how any money would be spent. Please make sure the totals match the amount of your full project costs and the amount you’re requesting from us;
- Don’t be afraid to show your passion for your project. You know why it is needed and the difference it will make – tell us!;
- Save, save, SAVE! Remember to save your work. You can return to your application form as many times as you like before marking as complete and submitting. Once you have submitted it you will not be able to alter it.
Submit your application

Once you have marked your application as complete, please don’t forget to press SUBMIT within the portal homepage.

Please ensure that you are happy with your application before you mark as complete and press submit, because once you do you will not be able to go back and edit. You do have the ability to go back and edit your ‘Profile’ though, so if any contact details change during the process, please update your profile accordingly as soon as possible.

Once submitted, you will receive a confirmation email to confirm we’ve received your application.

You can also save and print your application from within the portal.

If there are changes within your organisation during the application or grant and you need to change the log in email address for the application, please contact us at communityfund@severntrent.co.uk.

The size of grant you’ve applied for and the date you submit your application will influence how long the decision process takes, but we will always try to let you know the final outcome of your application within five months of submission.
Review and approval process

Internal review

Once you have submitted your application, your application will now be with our internal team for internal review.

There are a number of things our internal team will need to do:

• Do a final eligibility check to make sure you can apply for the Fund
• Carry out due diligence checks
• Internal scoring and comments
• Get subject matter expert advice when necessary

Your application will be assessed and scored against the following criteria:

• **Community need**: What is the need for this project in the community and have the community been involved in the planning?
• **Planning**: Is the project planned well and have a sufficient budget breakdown?
• **Sustainability**: How will the project be sustained and bring benefit beyond the investment period?
• **Value for money**: Does the project seem like good value for money in comparison to similar projects?

Following these checks, there are 3 possible scenarios:

1. Your project is ineligible and/or is not a strong fit for our criteria. In which case, unfortunately we will let you know that your application will not be progressing.

2. Your application passes our internal checks in principal but there are couple of things we need to clarify or we require further detail from you. In which case one of the team will be in contact with you to discuss.

3. Your application passes our internal checks and your application is progressed to our next stage, Community Fund Panel review. We’ll send you an email to confirm this.

Community Fund Panel review

If your project passes our internal review and is a good fit for our criteria, your application will then be taken to our Community Fund Panel for a final decision.

This is an independent Panel made up of our customers, so ultimately, it is then our customers who decide where our money goes.

The Panel meet on a quarterly basis to review applications against the same criteria outlined above and APPROVE or REJECT applications. The Panel meetings are in March, June, September and December, so please bear that in mind when submitting your application.

Unfortunately, if your project is not successful, the Panel decision cannot be appealed. We will provide you with Panel comments and reasons why it was unsuccessful.
If your application is unsuccessful you are welcome to reapply to the Community Fund with a different project.

We only reject applications with good reason so if you want to re-apply with a different project, please take the time to understand why your application was not successful. We really would not want to disappoint you again.

Our Fund Officers are always available to discuss further applications with you.
Grant offer stage and payments

Congratulations, the Panel has approved your funding and your application has been successful!

At this point, we will notify you that you have been successful and that you need to log onto your grant portal to view your Grant Offer letter.

There are 3 things you need to do before we can give you the funding:

- Read the Grant Offer letter and Terms and Conditions of the Grant carefully
- Accept the Grant by signing the agreement
- Provide us with your organisation’s banks details (with two unrelated signatories for joint authorisation), a recent bank statement (dated within the last 3 months) and any other requested documents (such as project consent form or evidence of tenure)

For large grants, this the point where we will discuss and agree a payment structure with you.

Please complete the above within 7 days of receiving your offer letter to avoid any delays. Your offer will be subject to a final financial check.

If you have any queries or concerns regarding this offer letter, please get in touch with the team by emailing communityfund@severntrent.co.uk.

The first payment will be made following acceptance of the grant and receipt of any required documents, as detailed in your offer letter, and will be made within a month of the project start date.

Payment structure

Grants are paid by BACS transfer into your organisation’s bank account that you provide at grant offer stage.

Our payment structure depends on how much you are awarded:

- **£2,000 to 10,000** – one payment of 100% (unless agreed otherwise by the Panel)
- **£10,001 to 75,000** – two payments with a 10% retention for End of Grant Monitoring
- **£75,001 to £200,000** – on case by case basis, aligned to project-specific milestones

The first payment will be made following acceptance of the grant and receipt of any additional required documents, as detailed in your offer letter.

Any additional payments will be made once we receive a satisfactory interim report and/or are shown satisfactory overall progress against your key milestones and objectives.

Any amount retained will then be released once we receive your End of Grant report.
Post offer

Provide us with reports and updates on your project

We can’t wait to hear how your project is progressing and see it completed, so there will be some required monitoring.

We expect all successful applicants to provide us with an End of Grant report, and maybe at least one interim report, both of which we’ll provide you with templates for. Information that will need to be provided includes:

- Evidence of the activities undertaken using the grant;
- Monitoring information, including information about number of beneficiaries and activities they’re involved in;
- Evidence of expenditure both during and on completion of their project activities, so please keep a hold of any invoices or receipts you obtain along the way!

For the bigger grants, we will likely ask for multiple reports.

Monitoring visits

We’d love to see your completed project in person too, so you may receive a visit from a member of our Community Fund Team or Customer Panel. The visit will be pre-arranged and will include discussions on the progress of your project, your budget and lessons learnt so far.

Promote your project and the Severn Trent Community Fund where possible

A condition of your offer is that you promote your project and the Severn Trent Community Fund where possible, as this helps us sustain the Fund and to keep applications flowing. We will provide you with a toolkit, including press-release templates and Community Fund branding, to help you with this.

What to do if you project is delayed or encounters problems

If you project runs into difficulties, please don’t panic!

If you need help or support, get in touch with us by emailing communityfund@severntrent.co.uk as soon as possible. The earlier you can tell us about a potential problem, the more likely we will be able to help.
**Complete your project on time**

For all grant sizes, you must start your project within 3 months of the award date.

For grants up to £75,000, you must complete your project within 12 months.

For applications in excess of £75,001, we allow up to 24 months for project completion.

Extensions may be given in exceptional cases, but these cannot be guaranteed. Requests may need to be taken to vote at a Community Fund Panel meeting.

**Applications for other projects**

We will happily consider future projects for funding once your funded project is completed, all required monitoring has been received, and at least 12 months have passed since the date on your previous grant offer letter.

We cannot, however, provide more funding for the same project you have already received funding from us for.
