About this document

Wholesale charges 2020-21

1 April 2020 to 31 March 2021

Wholesale charging rules issued by the Water Services Regulation Authority (Ofwat) only apply to the charges that wholesalers make to retailers for the provision of services to business customers. However, for the purposes of demonstrating compliance with the price controls determined in respect of wholesale activities, Ofwat requires wholesalers (under Condition B (Charges) of their appointments) to publish all wholesale charges in one document.

This document is not a Scheme of Charges. All terms, conditions and descriptions of the services offered can be found within the two Schemes we have published on our website.

- Household customers should refer to the Household Scheme of Charges. Wholesale charges for households are included within the charges that apply to households.
- Retailers should refer to the Wholesale Scheme of Charges. Wholesale charges for non-households in this document are a copy of those published in the Wholesale Scheme.

This document is split into three:

- Section 1 is the wholesale charges that are included within household bills.
- Section 2 is our primary wholesale charges for retailers supplying eligible premises within the non-household market.
- Section 3 is our non-primary charges for retailers or other customers.

NAV charges apply to **new appointments** for unserved sites. They do not apply to new appointees serving large non-household customers using **more than 50 MI/a** or variations by consent. Numbers are based on Zones 1 to 8. Different rates for **water** would apply in Zones 9 and 10 (Wrexham or Chester).

These are indicative charges for a typical housing development; actual charges will depend on **our** calculation of the cost that **we** would incur if **we** served the site directly, as described in B3.4. These charges apply to **new appointments** for unserved sites. They do not apply to **new appointments** serving large non-household customers using more than 50 MI/a or variations by consent. **We** have not presented indicative **NAV** charges for zones 9 or 10 and **we** would calculate the rates for any **NAV** site in those areas based on the wholesale volumetric charges that apply in those areas.

2.4 Assessed volume charges

Table 13: Assessed volume charges

Charges are calculated by using the appropriate m3 charge listed in the table below and multiplying it by the volume of water that we assess is supplied to such premises plus fixed charges where applicable (also shown in table below).
