How would you like us to contact you? Email Post

Section 2

Site details Note 2.1

Address Note

XY Coordinates

Postcode

Section 3

Account details

Please state your Severn Trent account number shown at the top of the water service bill related to the property requiring the replacement:

Are you currently on a metered supply?

Yes

No

If no, did you know that many customers find that their bills are cheaper after switching to a water meter, and if you use less water after switching to a water meter, it makes environmental sense too. Let the technician know if you would be interested to be billed via metered supply. Please note; all new supplies will be metered, however, it will be your choice how you wish to be billed.

Are you on any payment schemes such as WaterSure, Water Direct, Payment plan concession, Reduced Tariff etc.?

If yes, please specify:

Section 4

Plumbing details

1. Is the ground floor of any property elevated more than five metres above the public highway, i.e. road or footpath? Yes No
2. Including the ground floor what is the maximum number of floors within an individual building?
3. Is the hot water system to be fed directly from mains water? (e.g. combi/unvented) Yes No
4. Will rainwater, recycled or grey water plumbing installations be used? **Note 2.2** Yes No
5. Is the property accessed via a private road or street? Yes No

Section 5

WaterSafe plumber details (where applicable) Note 2.3

Name of plumber

Address

Section 6 - Checklist and payment

Please send us all information as soon as you can so that we can process your application and get back to you as soon as possible.

There's a fee for each type of application which is shown below and you can find more information on our charges at stwater.co.uk/developers or by calling us on **0800 707 6600**. The payment options are on the next page, but if you're paying by cheque please make sure that it's securely attached to the application form and that all items are posted together.

If we don't receive the application fee(s) within 30 days of receiving your application we'll assume that you don't want to go ahead with this application.

6a. Standard water connection

Item	Included
Location plan identifying the property needing connection (i.e. ordnance survey plan)	
Site plan indicating the route of the customer service pipe to the highway boundary	

I am making an application for a total of connections.

I will be making a total payment of £

This payment is for the initial charge of £170.86 for the first 1,2 or 3 connections (inclusively) and x £107.70 to account for the further connections based on this charge allowing for up to three additional connections.

6b. Payment details

Please tell us how you are going to pay the application fee:

Cheque Debit/credit card BACS

For debit/credit card payments please call us on **02477 715204** upon receipt of your acknowledgment letter, quoting your reference number.

All payments are made securely during the application process. There is no need to share your bank details at any other point. Please use your Reference number in all further communications with us.

Please make all cheques payable to Severn Trent Ltd and post it to us along with your completed application form.

Please attach your cheque to the completed application form and post together.

If you're making a BACS payment please send your payment to our bank using these details:

Barclays

Sort code: 20-00-00

Account number: 03398498

UTR number: 054 37510 61510

Company registration number: 2366686

Tell us the date the payment was made, who made it and the BACS reference number so we can match your application to your payment.

Please make sure any BACS payment is made before you submit your application.

BACS ref	<input type="text"/>
Payer	<input type="text"/>
Date	<input type="text"/>
Amount	<input type="text"/>

Please send all completed applications and supporting information to:
Severn Trent Ltd, PO Box 5311, Coventry CV3 9FL

Or email them to new.connections@severntrent.co.uk in a zip file.

If you email your application to us, we'll assume that you're going to pay by credit/debit card and will contact you for payment.

Section 7 - Declaration (to be signed by the applicant):

I confirm that I am the owner and or occupier of the premises to which this application relates. As such I will be liable for the charges relating to this application form as set out in the current Developer Charges and the quotation to be provided by Severn Trent Limited for the water connection(s). I will comply with all statutory requirements including but not limited to the Water Supply (Water Fittings) Regulations 1999 and where appropriate, the CDM Regulations 2015 (as amended).

The information provided in this application form is true and accurate to the best of my knowledge and belief. I accept that any changes to this information at a later stage may result in Severn Trent having to change their quotation. I am duly authorised to sign on behalf of the Applicant.

Support notes

Note 1: Applicant's details

1.1 If any of the following statements are true this is not a shared supply replacement and this is not the correct application form to complete:

- The existing pipe is not shared.
- Your property is use for non domestic purposes in part or whole.
- The building is undergoing extensive renovation or the building is undergoing change of use.
- The required company owned service pipe exceeds 25mm outside diameter.
- The connection is required in a different Location to the original company owned service pipe and it is still possible to reconnect in the original location.
- The property is not linked to an existing Severn Trent Water account.
- The property is not occupied.

1.2: The Applicant is the owner/occupier of the site that requires the connection. It is this individual/company that is responsible for the content of the application form and accepting the conditions laid out in the application declaration.

1.3: Please ensure that the complete address and contact details are provided. These address details may be used for future contact and correspondence.

1.4: We will accept an application form that has been completed by Agent/Consultant, however, the Applicant remains responsible for the content of the application and must sign the application form.

2.1: Please provide as much of the site address as is available at the time of the application submissions. This address MUST contain Road name, Town/city, County.

2.2: Grey water: Waste water generated from domestic activities such as laundry, dishwashers and bathing.

2.3: WaterSafe plumbers are plumbers that are members of 'WaterSafe' approved plumber scheme. For more details on 'Watersafe' please refer to www.watersafe.org.uk.

We strongly recommend that you employ a qualified plumber, such as a member of 'WaterSafe' approved plumber scheme.

WaterSafe approved plumbers will:

- confirm the supply is shared;
- confirm the material of your existing service pipe;
- ensure the work is done safely, in accordance with the Government's 'Water Supply (Water Fittings) Regulations 1999';
- connect your new service pipe to your existing internal pipe work;
- save time by not having to wait for an inspection.

WaterSafe approved plumbers are not employed by STW, nor do we gain any financial benefit from you using them. However, to gain membership they have been audited for workmanship and compliance with the regulations. In this respect all warranties expressed or implied are excluded and we cannot accept any responsibility for their work or charges.

Installing a 25mm/32mm private service pipe on a domestic property

This sheet explains what you need to do to pass a water regulations inspection required for a 25mm/32mm domestic property in order to connect the property to the water network.

1. The depth of the service pipe should be between 750mm minimum and 1350mm maximum.
2. The pipe material needs to be either MDPE or barrier pipe. This will be highlighted on the customer sketch attached to the quote.
3. The service pipe must be insulated and ducted at the point it enters the property. The duct should be a continuous non perforated duct at least 4" in diameter. This needs to be from the point of entry (where the pipe enters the property) to the floor level inside the property. Pipe insulation needs to be 19mm thick in closed-cell insulation material.
4. A stop tap should be fitted internally in an accessible position.
5. Where the property boundary meets the highway - as illustrated in the quote sketch - a suitable mechanical cap end should be fitted to prevent ingress and contamination of the service pipe. This cap end must be fitted when you install the pipe.
6. All fittings utilised for installing the service pipe and onward plumbing system must comply with Section 4 of the Water Supply (Water Fittings) Regulations 1999.
7. Where multiple service pipes are brought to the same location, the pipe tails should be labelled with the right plot number and be a minimum of 300mm apart. This will ensure service pipes are not cross connected and each property is billed correctly.

Before we inspect the service pipe, please ensure that:

- you are compliant with points 1-7 above
- any scaffolding is a minimum of two metres away from the service pipe
- you have the postal address of the property
- all requirements highlighted in points 1-7 above are visible for inspection
