

LARGE DIAMETER CONNECTIONS APPLICATION

SEVERN

TRENT

WONDERFUL ON TAP

To provide a large diameter connection of 50mm and above.

Section 45 and 55 Water Industry Act 1991

Before you begin

- Find what you need your water supply for in Section 1 or use the links and contact details below.
- It may take up to 28 days to receive a quotation for your new connection.
- Check you'll be ready for your new connection within 6 months from the date of your quotation or you will need to apply again.
- Submitting this form requires payment of an application fee and this charge is non-refundable.
- Look at the checklist at the end of the form to know which documents to include.

Completing this form

- Complete all sections marked with an asterisk(*) so that we can log your application.
- Complete any other section as much as you can process your application.
- Send your form and wait for us to contact you. You might wait longer for your quote if you need to provide more information.

Section 1 Reason(s) for the new connection(s)*

Building new domestic properties -
please specify the type of property
(e.g. detached houses, flats)

Building new commercial properties -
please specify the type of property
(e.g. office flats, shop)

Converting use of existing properties

Replacing existing water supplies

Installing a fire fighting system

Supplying agriculture troughs and irrigation systems

Requesting a temporary water supply for a building site

Utilising & connecting to the existing service pipe but not requiring a new connection to a water main

Section 2 Contact details*

The person or company completing and signing this form is responsible for accepting the terms and conditions of the declaration and for paying the application fee(s). We can accept a form that has been completed by agents, consultants and contractors who are duly authorised by the applicant but the applicant details must always be provided, and the applicant remains ultimately liable for the application fee(s).

2a. Applicant details*

The applicant is the owner or occupier of the site /land/property.

Applicant (individual/company) name

Contact name (if completing on behalf of a company)

Address

Street

Town

Postcode

Contact email address

Contact phone number

Company registration number (specify if not applicable)

Tick here if the applicant is our primary contact for this application

Tick here if this is your first application for a new connection

Our guidance documents:

[Large Diameter Water Connection Guidance](#)

2b. Agent/consultant/contractor details

Agent/consultant/contractor (individual/company) name	Contact name (if completing on behalf of a company)
Address	Contact email address
Street	Contact phone number
Town	Company registration number (specify if not applicable)
Postcode	

☐ Tick here if the agent/consultant/contractor is our primary contact for this application

☐ Tick here if our primary contact for this application is anyone else and specify

Section 3 Linked applications

Here you can provide the reference numbers for any previous application. A reference number is given to you after you complete an application form.

Severn Trent reference numbers

Section 4 Site location*

Please provide the site address or the closest address to your site.

You can tell us the location of your new connection as a grid reference or by providing your unique what3words address.

Site address/location of the work	Location Coordinates
Property name/No.	
Street	You can find your xy coordinates on the UK national grid map: gridreferencefinder.com
Town	Your what3words location
Postcode	
	You can find this by visiting: what3words.com

Section 5 Previous site usage and connections*

5a. Previous site usage*

We ask how the site has been used to assess the risk of contaminants in the ground and to make sure no water supply becomes contaminated.

What has the site been used for?

☐ Greenfield, any land which has never been developed

☐ Other, please specify

What measures will you take to prevent contamination of the new water supply?

☐ Lay protective pipework.

☐ Submit a soil analysis report and wait for Severn Trent to advise on whether to lay protective or polyethylene (MDPE) pipework.

5b. Existing water supply*

Is the site already receiving a water supply?

<input type="checkbox"/> Yes - my water supply is sourced from:	<input type="checkbox"/> Severn Trent existing supply- please supply billing account No. <input type="text"/>
	<input type="checkbox"/> Natural spring, bore hole or private water supply
<input type="checkbox"/> No - my water supply is sourced from:	<input type="checkbox"/> Neighbouring property - please supply billing account No. <input type="text"/>
	<input type="checkbox"/> Temporary standpipe

If you've selected 'Yes – Severn Trent existing supply', what do you intend to do with that water connection?

<input type="checkbox"/> Retain it for plot/property No.	<input type="text"/>
<input type="checkbox"/> Change it – please add details	<input type="text"/>
<input type="checkbox"/> Disconnect it	

5c. Previous water or sewer connection *

If any properties on your development site have had a water or sewer connection in the last 5 years, you may be eligible for credits to your infrastructure charges. These may reduce the amount you need to pay.

Has the site been billed for water and wastewater services in the last 5 years?

<input type="checkbox"/> Yes - please specify the site address	<input type="text"/>
<input type="checkbox"/> No	

5d. Previous water fittings

Previous water fittings	Total no.
WC flushing cisterns	
Auto flushing cisterns	
Basins household	
Basins elsewhere	
Baths (taps up to 20mm)	
Baths (taps over 20mm)	
Showers	
Sinks (taps up to 15mm)	
Sinks (taps over 15mm)	
Single spray taps	
Bidets	
Dishwashers	
Clothes washer	
Hose taps	
Drinks vending machines	
Hose bib taps	
Total	

Section 6 Large diameter water connection(s)*

6a. New connection details*

How many connections do you need?

Considering the timescales explained on the front page under 'before you begin', is there a date when you need your new connection(s) by?

Are there any other details you would like to add to explain the reason for your new connection(s)?
(e.g. type of property, number of flats)

Is the ground floor of any property elevated more than five metres above the public highway, i.e. road or footpath?

☐ Yes

☐ No

Including the ground floor what is the maximum number of floors within an individual building?

Is the hot water system to be fed directly from mains water? (e.g. combi/unvented)

☐ Yes

☐ No

Do you need a meter with a pulsed output for linking to the Building Management System (BMS) – Dual Pulse Meter?

☐ Yes

☐ No

6b. Water for fire fighting

Do you need a fire supply for the site?

- ☐ Yes
- ☐ No-please skip to the next section

If yes, what is the supply for?

- ☐ Fire sprinkler system
- ☐ Fire hydrant
- ☐ Other - please specify

Section 7 Storage and water use

7a. Storage*

Are you going to install any storage system (e.g. tank)?

- ☐ Yes
- ☐ No - please skip to section 7b

If yes, what is the storage for:

- ☐ Water supply
- ☐ Water for fire fighting

What is the storage capacity?

Storage use	Tank capacity	Full holding capacity storage tank which refills fully over 36 hours	Reduced capacity storage tank which takes water from the mains	Minimum flow rate (litres/second)
Water supply				
Water for fire fighting				
Water supply and water for fire fighting				

7b. Water use - domestic flats

	Number of flats	Number of bedrooms per flats	Number of bathrooms per flats
Plot:			
Plot:

7b. Water use - commercial units

	Plot:		Plot:		Plot:		Plot:	
Water to be supplied from								
Water fixtures and fittings	main and storage	storage only	main and storage	storage only	main and storage	storage only	main and storage	storage only
WC flushing cisterns								
Auto flushing cisterns								
Basins household								
Basins elsewhere								
Baths (taps up to 20mm)								
Baths (taps over 20mm)								
Showers								
Sinks (taps up to 15mm)								
Sinks (taps over 15mm)								
Single spray taps								
Bidets								
Dishwashers								
Clothes washer								
Hose taps								
Drinks vending machines								
Hose bib taps								
Total								
Plot / unit size area (m2)								
Average daily usage (litres per day)								
Peak flow (litres per second)								
Day water usage (hours)								
Process water (litres per second)								

8a. Wastewater removal

Wastewater is any water that has been used (foul water) or collected (surface water) and needs to be taken away from a property. Connections and discharges to a public sewer need our approval when wastewater goes directly to a sewer or via a private drain.

Will foul water drain into a public sewer?

☐ Yes

☐ No - please specify how it will be removed:

Will surface water drain into a public sewer?

☐ Yes

☐ No - please specify how it will be drained:

Have you already applied for our approval to discharge to a sewer?

☐ Yes - please specify Severn Trent reference number in Section 3

☐ No

Will any plumbing installations be used for rainwater, recycled or untreated water not supplied by us?

☐ Yes

☐ No

Section 9 Environmental Incentive Scheme – domestic properties only

Our Environmental Incentive Scheme could provide you, as a home builder, a financial incentive by building new homes to specified qualifying criteria. Click [here](#) to find out more.

Please tick the following statements:

Tick

- I confirm that I intend to apply for the below environmental incentives.
- I understand that I will submit an Environmental Incentive application form with all required evidence for each plot within 12 weeks of making the water connection and all internal fittings and/or all external surface water management solutions have been installed.
- I understand that applying for an incentive does not guarantee that an incentive will be received.
- I understand that my incentive will be subject to review and audits.

If the below table is not fully completed, we'll assume you're not intending to apply for the incentive scheme.

Please let us know which incentives you intend to apply for (more than one can be ticked):

Type	Criteria	I intend to apply for (tick)	Number of plots
Water efficiency	100 litres per person per day		
	90 litres per person per day		
	85 litres per person per day		
Property level surface water management	Rain garden		
	Permeable paving		

Section 10 Billing - commercial properties only

10a. Water retailer

Most businesses and organisations in England can choose which company they want to supply their water and wastewater services (billing, meter readings, customer services). The list of water and wastewater retailers in the open market can be found on open-water.org.uk. Prior to the date of the new connection, you will need to choose your retailer and agree the terms of your agreement with them.

Have you already chosen your water retailer?

☐ Yes - please specify

☐ No

☐ Not applicable

10b. Surface water area details

If surface water drains from the commercial property directly or indirectly to a public sewer, we need to know the size of the property's roof and hard standing impermeable area to bill the property correctly.

What is the total surface area of the building you are proposing to connect to the sewer?

m2

Section 11 Construction and Design Management (CDM) Regulations 2015

For information on the CDM Regulations 2015 please visit www.hse.gov.uk

Is your project notifiable?

A project is notifiable when there are 20 workers working simultaneously at any point in the project or involves more than 500 person days.

☐ Yes ☐ No - please skip the next question

Has the Health and Safety Executive been notified that your project is notifiable?

If No, you need to inform the HSE at www.hse.gov.uk before you submit this application form.

☐ Yes ☐ No

Is the work being undertaken for a domestic client?

☐ Yes ☐ No - please provide the contact details on the next page

If yes, have you notified the principal designer and/or principal contractor of their responsibilities?

☐ Yes ☐ No

Section 12 Payment and document checklist details

12a. Checklist - please confirm the documents you are going to submit with your application

Checklist				
Scenario	Document	Document details	Form section	Tick if included
For connections to any premises	Site location plan	<ul style="list-style-type: none"> the site boundary the property (if existing) needing a connection the route of the supply pipe(s) you are proposing to lay to the site boundary the proposed point of connection to our water mains (if known) 	3	
Planning to lay MDPE pipework	Full chemical soil analysis report	Soil contamination assessment	5a	
If paying by bank transfer	Proof of payment		12d	

12b. Payment - please confirm the number of connections and application fee(s) to be paid

Item	Number of connections	Total payment to be made
Large Diameter service connection - £364.85 (£304.04 excl. 20% VAT), for the first connection.		£
Large Diameter connection - £130.59 (£108.83 excl. 20% VAT) per additional connection.		£
Total		£

12c. - Payer - please confirm who is going to pay the application fee(s) for invoicing purposes

☐ Applicant
 ☐ Agent/Consultant /Contractor
 ☐ Other - please specify

12d. Payment method - please confirm how the application fee(s) are going to be paid

☐ Debit/credit card

To pay, please call us on **02477 715204** once you have received our acknowledgment of your application including your reference number.

☐ Bank transfer (BACS and faster payments)

To pay, please use our bank details below and use your site postcode and address as reference for your payment.

Account name: Severn Trent Ltd

Bank: Barclays

Sort code: 20-00-00

Account number: 03398498

UTR number: 054 37510 61510

Company registration number: 2366686

Payment reference No.
(site postcode and address)

Effective date of payment

Section 13 Declaration* (to be signed by the applicant or authorised persons on their behalf)

By signing this form:

- I confirm that I am the applicant and the owner or occupier of the site/land/property or an authorised person to complete this form on their behalf.
- I agree to pay all relevant costs as set out in the current “Severn Trent Charging Arrangement document”. Unless indicated otherwise in the payer section, these costs include the relevant application fee(s) for the number of connections being made to the Severn Trent network. I accept that the application fees are non-refundable.
- I confirm that the information provided in this application form is true and accurate to the best of my knowledge and belief. I accept that making any changes to this application at a later stage may affect Severn Trent’s timescales to issue their response and could result in additional fees being payable.
- I confirm that I am responsible for:
 - a) complying with all relevant statutory guidance , approved codes of practices, and legislation in carrying out the works; and
 - b) obtaining all appropriate consents, permissions, easements/wayleaves, etc. as may be necessary before carrying out any works.
- I understand that if the ground floor of any property is elevated more than 5 meters above the public highway, I may need to consider a tank-fed or pump and booster system.
- I understand that I will receive a quotation for my new connection within 28 days from the date I submit my application with all the required supporting documents and a connection will need to be made within 6 months from the date the quotation is issued.
