

PLANT PRINT ART

Plant leaves can make particularly striking and beautiful prints and can be gathered on nature walks or from your garden.

Materials Needed:

- Craft paint
- Paintbrushes
- Paper or card
- Different shaped leaves

Creating your art:

Find some different shaped leaves from your garden or a walk outdoors. Paint on top of them then press directly onto the paper, smoothing over the back of them with your hands, carefully peel off to reveal the print.

TOP TIP: Try using different colours on the leaf before printing.

Why not add them to your nature scrapbook or use them to make a birthday card, wrapping paper or gift tag?
